

# TEAM PLANNER

MANAGE YOUR RESOURCES

## ABOUT TEAM PLANNER

### Struggling to get a resource overview?

Team Planner is Projectum's Resource Management tool for Microsoft Project Online. Team Planner enables Project Managers to plan and control resource requests while Line Managers get a complete overview of their team and allocations. Team Planner provides management with an outline of the capacity situation through relevant out-of-the-box dashboards within the time frame of your choice.

### BENEFITS FOR LINE MANAGERS & PROJECT MANAGERS

**Increased resource utilization** as a result of an instant and accurate project and capacity overview.

**Get a full overview** of your resource requests and resource allocations.

**Make sure** that the right resources are at the right projects at the right time.

### RESOURCE OVERVIEW

Get a capacity overview from best-in-class, built-in reports or resource dashboards in Microsoft Power BI. Team Planner provides the PMO, Top Management, Line Managers and Project Managers with great visibility over the Project Portfolio, demand and capacity for resources. With Team Planner, you can secure optimal resource utilization in your organization.
